

# GIGA X7 Professional

## Technical overview

### JURA standards

Variable brewing unit, from 5 g to 16 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Powder recognition for second, ground coffee	■
Power hot water system (3 temperature levels) approx. 0,5 l/min.	■
Cappuccino frother	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Electrically adjustable ceramic disc grinders (5 levels)	2
CLARIS filter cartridge	■
High-performance pump, 15 bar	2
Thermoblock heating system	2
Integrated rinsing, cleaning and descaling programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

### Specific benefits

Latte macchiato at the touch of a button	1 or 2
Caffè latte at the touch of a button	1 or 2
Cappuccino at the touch of a button	1 or 2
Electrically adjustable cappuccino frother with fine foam technology	■
Indicator light for bean container	■
A la carte bean selection	■
Aroma preservation cover	■
Intelligent preheating	■
Integrated storage compartment	■
TÜV certificate for user-friendly user manual	■

### Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Programmable coffee strength	5 levels
Coffee strength can be adjusted for each preparation	■
Programmable brewing temperature	3 levels
Programmable hot water temperature	3 levels
TFT colour display	■
Rotary Switch	■
Switch-on and switch-off times can be specified for each day of the week	■
Active bean monitoring	■
Monitored drip tray	■
Maintenance status display	■

### Design and materials

Alu Frame Design® 3 mm aluminium front	■
Venti Ports	■
Height-adjustable dual spout (cappuccino/coffee)	70 – 159 mm
Width-adjustable dual spout	20 – 50 mm
Height-adjustable hot-water spout	69 – 165 mm
Amber cup illumination	■
White cup illumination	■
Magnetic splash guard behind dual spout	■
Sound design	■

### Accessories

Cup warmer	optional
Compressor Cooler Pro	optional
Accounting system	optional
Coffee grounds disposal set	optional
Drip drain set	optional
Coffee to Go equipment	optional

### In figures

Water tank capacity	5 l
Coffee grounds container (servings)	approx. 40
Bean containers with aroma preservation cover	2 x 650 g
Cable length	approx. 1.2 m
Voltage	220 – 240 V AC
Power	2300 W
Energy consumption	30 Wh
Energy consumption with E.S.M. 1°	12 Wh
Energy consumption with E.S.M. 2°	15 Wh
Stand-by power	≤ 0,5 W
Weight	18.2 kg
Dimensions (W x H x D)	37 x 56.5 x 49.7 cm
Checks	CE S
Article number	13585

2 professional ceramic disc grinders

Variable dual spout with 2 coffee spouts and 2 milk spouts

Twice the power for the perfect results

GIGA Value Protection

# GIGA X7 Professional

SWISS  MADE

## Diversity in self-service

The simple operating concept and the wide range of specialities, from ristretto to latte macchiato at the touch of a button, make the powerful GIGA X7 Professional the perfect coffee solution for delicious speciality coffees for customers, guests or employees. It always cut a fantastic figure, even when you're pushed for time, because it can prepare two specialities – even speciality coffees with milk – at the same time.

### 2 professional ceramic disc grinders

To extract the aromas from the coffee and channel them into the cup, the fresh, roasted coffee beans are first of all carefully ground. Two high-performance grinders made from a virtually wear-free technical ceramic guarantee quick, precise, even and consistent grinding. Because it is not possible to manually adjust the consistency of grind during the short grinding process, the GIGA's electronically controlled motors are responsible for this.

### Variable dual spout with 2 coffee spouts and 2 milk spouts

The dual spout, a masterpiece of modern engineering, dispenses the liquid into the cup or glass and can be smoothly height-adjusted (between 70 mm and 159 mm) and width adjusted (between 20 mm and 50 mm). The cappuccino frother even features an adjustable air intake, controlled by a geared stepper motor. When you make a latte macchiato, the machine automatically dispenses hot milk followed by milk foam into the glass.

### Twice the power for the perfect results

A classic favourite is once again enjoying increasing popularity and has become an insiders' tip in many parts of the world: the caffè latte. It may sound simple, but in reality it's something of a technical challenge, because its secret lies in the optimum blending of milk and coffee during preparation. The only way to achieve this is for the milk and coffee to flow into the cup at the same time. This is made possible by the use of two pumps, two flowmeters and two separate heating systems.

### GIGA Value Protection (for specific markets)

GIGA customers can now enjoy an exclusive, new service concept that is fully in line with JURA's high quality standard. The 'comprehensive service package' guarantees the performance of the professional coffee machines and that they will retain their value, for 25 months or 45 000 preparations. This includes, for example, two inspections after 9 and 18 months.\*

\*can vary per market
